

FACULTY SENATE RESOLUTION 88-2

WHEREAS it is common and accepted practice for universities to require of transfer students from other institutions a 2.0 average on all previous college work attempted, and

WHEREAS experience at LSU [indicates] that the admission of transfer students in certain categories with averages as low as 1.75 is not a wise or productive policy;

THEREFORE BE IT RESOLVED that effective in June 1990, LSU and A&M College shall require an average of 2.0 on all college work attempted, for the admission of undergraduate transfer students, except in extraordinary circumstances.

ADOPTED: October 5, 1988
